Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 9-12, 14, and 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Murdock et al.

Re claim 9, Murdock et al. discloses a visor (26) for vehicles comprising an elbow member (30) having an elongated portion (38), a body member having a slot (106), a torque control member (34) having at least a portion thereof received in the slot (74) and slidingly and frictionally engaging the slot and controlling sliding movement of the body member along the torque control member and the elbow member.

Re claim 10, the body member is pivotably mounted to the elbow member for rotation about the elongated portion.

Re claim 11, the elongated portion of the elbow member is generally straight.

Re claim 12, the elongated portion includes at least one indentation (column 4, line 67, the lobe) in the surface thereof, and wherein the torque control member includes at least one finger (54) resiliently engaging the indentation to provide a detent to retain the body member in a fixed rotational position relative to the elongated portion of the elbow member.

Art Unit: 3612

Re claim 14, the body member includes first and second halves (see figure 3) connected by an integral limiting hinge about which the first and second halves pivot to form a cavity, the slot extending generally parallel to the living hinge within the cavity.

Re claim 19, Murdock et al. discloses a visor for vehicles comprising an elbow member (30) having an elongated portion (38), a body member having a slot (106), an engagement member (74) associated with the elbow member and having at least a portion thereof received in the slot and frictionally engaging the slot and controlling sliding movement of the engagement member and the body member along the elbow member.

Re claim 20, the engagement member comprises a torque control member (44) controlling the amount of torque required to rotate the body member about the elbow member.

Re claim 21, the elongated portion includes at least one indentation in the surface thereof (column 4, line 67, the lobe), and wherein the torque control member includes at least one finger (54) resiliently engaging the indentation to provide a detent to retain the body member in a fixed rotational position relative to the elongated portion of the elbow member.

Allowable Subject Matter

3. Claims 1-8 and 15-18 are allowed.
4. Claim 13 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 9-12 and 14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
